Continuation of Substance of Interview including description of the general nature of what was discussed: Examiner contacted Applicant's representative to inform him of an issue regarding graphical Tables present in the specification which presented a problem, under 37 CFR 1.58(a), with printing the patent of the application - which was Allowed and for which the Issue Fee has been paid. Pursuant to 37 CFR 1.81, Examiner suggested that the Tables be deleted from the text of the specification, and placed on a separate sheet which will be considered and marked as "Figures". It was also indicated that there would need to be a "Brief Description of the Drawings" added to the disclosure, and the references to "Tables" would need to be changed to "Figures". Examiner indicated that upon receipt of the Figures, she would make the necessary changes to the specification via an Examiner's amendment. Applicant agreed and the Figures were sent to Examiner. Changes to the specification are reflected on the attached Examiner's amendment.
